关于印发《中国人民大学研究生学位论文学术不端行为处理暂行办法》的通知

各学院（系），机关各部、处及直（附）属单位：

《中国人民大学研究生学位论文学术不端行为处理暂行办法》已于2010年1月15日经第七届校学位评定委员会第10次全体会议通过，现予以印发，请认真研究，遵照执行。

附件：中国人民大学研究生学位论文学术不端行为处理暂行办法

二〇一〇年三月十日

课程内容

- 专题一：论文写作与发表
  - 资料：**CCF、CNAIS**
  - 修改稿的回应信
- 专题二：文献查阅
- 专题三：毕业论文构思与写作
  - 资料：毕业论文模板
- 专题四：信息系统伦理
  - 信息系统伦理
  - 大数据伦理

课程目的

- 能够按照规范撰写一篇用于投给期刊或会议的学术论文；
- 能够按照规范撰写一篇用于毕业的硕士学位论文；
- 能够自主查找文献资料，把握国内外发展动态；
- 能够注重学术伦理和技术伦理问题。

要求

- 认真听讲
- 积极参与
- 带上电脑

研究生阶段的学习

- 在目前这个阶段，也就是你们读研究生、博士生的这个阶段，这个阶段的学习是性价比最高的，是性能价格比最高。
- 有的同学刚来学习就想去实习，或者想去干点别的什么事，其实是浪费了最好的时间。因为在这个阶段，你学习的时候，有学院、学校给你安排完整的课堂体系，有老师给你指点，还有同窗共同探讨，没有比这样的学习时段、学习环境再好的了。
- 毕业以后只能靠自己开悟，再也没有这么好的学习时段。

中科院　吕本富教授**2021**新生开学典礼上的讲话

春联1

- 上联：早出晚归马不停蹄做实验只盼数据可用
- 下联：日夜兼程殚精竭虑写论文就想来年毕业
- 横批：科研狗大一岁

春联2

- 上联：发文章每投必中
- 下联：做实验皆呈阳性
- 横批：SCI

关于科研小论文的要求

- a、论文需与申请学位专业相关
- b、期刊需与专业相关且有公开期刊号
- c、论文发表人需为第一撰写人
- d、论文字数5000字以上
- PS：发表人单位不需要写中国人民大学，如已发表已写满足以上要求也可以。

科研论文

- 科研论文：作者的科学思维， 通过科学实践所获得的科研成果进行总结归纳后，按论点和论据所写成的论证性文章。
- 一篇好的论文既要求内容丰富、新颖、科学性强，又要富有理论性和实践性，且文字通顺，层次清楚，逻辑性强。

貌似无用的研究

- 在奥运会上得奖牌的技能（比如投篮、速滑、跳水），在社会上会有什么用呢？
- 但你看一代一代的奥运健儿，他们的运动生涯比我们的学术生涯短多了。
- 他们不断追求卓越，挥汗如雨，很多人满身是伤，甚至伤残流血。
- 这是为什么我们会痴迷地看他们的比赛，全世界为他们拍手鼓掌，欢呼雀跃，因为他们代表了全人类追求卓越的精神。
- 所以，我们学术界每年也要经常一起开会切磋交流，也为学术界的奥运健儿助助兴、拍拍手、加加油。

古往今来，学贯中西：全球化下的战略思考模式——彭维刚教授专访

科研论文的基本特征1/2

- **科学性——方法论上的特征**
  - ✓ 科学性是科技论文的生命。
  - ✓一是论文内容的科学性，表现为论文的内容是真实的，其数据是可以重复的。
  - ✓二是论文表述的科学性，即表达要明白准确。
- **首创性——科技论文的灵魂**
  - ✓论文中揭示的事物现象的本质、规律和特性，应该是前人未见的或部分未见的。
  - ✓也就是说文章要有所发现，有所发明，有所创造。

科研论文的基本特征2/2

- 逻辑性——文章的结构
  - ✓撰写科技论文应该思路清晰，结构严谨，数据图表完整可靠，文字通顺，最后要分析讨论、推理，提高到学术的高度，而不是象实验报告一样，成为数字、现象的简单堆砌。
- 有效性——文章的表达方式
  - ✓归档的论文都会成为人类知识宝库中的一个组成部分。
  - ✓良好的文字表达正如园林布局，安排不当，索然无味；安排精巧，就会达到峰回路转，曲径通幽的美感。

本来是自娱自乐，自吹自擂，没想到玩大了，都是网络惹得祸

熟鸡蛋变成生鸡蛋(鸡蛋返生)—孵化雏鸡的实验报告

郭　平　白卫云

(郑州市春霖职业培训学校　河南　郑州　450000)

摘　要：鸡蛋返生",顾名思义,很由熟鸡蛋再变成生鸡蛋。这是一个难以想象的,甚至是不可能的,但是这样奇特的现象确实在郑州春霖职业培训学校发生了。一群特别培训的学生,在郭萍老师指导下,正在进行一个奇特实验,即熟鸡蛋重新变成生鸡蛋,并将返生后的生鸡蛋进行孵化成雏鸡。并且已经成功返生了40多枚。

关键词：生鸡蛋;熟鸡蛋;鸡蛋返生;孵化雏鸡;实验报告

【中图分类号】S831　【文献标识码】A　【文章编号】1674-3733(2020)22-0224-01

鸡蛋奇特返生的现象:根据鸡蛋的组织结构及功能。鸡蛋经过高温100℃开水煮20分钟,变成熟鸡蛋后,学生们运用自己的超心理意识能量方法等,将这些熟鸡蛋变成生鸡蛋,现在我们将这种奇特现象分享给科学探秘爱好者,共同探究其内在理论依据。

实验材料:鸡蛋10枚,一次性纸质茶杯10个。

实验场地:郑州春霖学校507教室。

实验时间:2020年8月12日11时。

室内温度:摄氏25℃,保持室内安静。

参加人员:郑州春霖学校特训生10人。见表1。

图1　鸡蛋由生变熟在返生图示

实验过程:(1)有新郑市龙湖镇后湖村村民,专程到郭太安养鸡场,取新鲜鸡蛋数枚。(2)将10枚鸡分别给予编号,蛋放入凉水锅内,水量以完全淹没鸡蛋3cm,点火,煮鸡蛋约23分钟。直到鸡蛋煮熟。采用灯光透光试验,鸡蛋不透光,并当场破壳一枚,检验卵白、蛋黄均已变成固态,判定为熟鸡蛋。(3)春霖学校特训班学生10人,每人选用纸质茶杯1个,取煮熟鸡蛋一枚,放入茶杯。(4)学生开始利用超心理意识能量方法,开始鸡蛋返生,20分后鸡蛋返生成功。由观察员再次进行透光试验,鸡蛋透光,卵白、卵黄分明可见,并当场破壳一枚,证实鸡蛋返生呈液态,返生成功,见附图1。目前,返生鸡蛋已经送雏鸡孵化场孵化,结果待续…。(5)将返生鸡蛋送回养鸡场进行孵化试验,等待结果。(如果孵化出雏鸡)。为了更好探讨鸡蛋返生悬念,我们重新复习一下有关鸡蛋的结构组成:

鸡蛋,也称鸡卵、鸡子、滚蛋等,是母鸡产生的卵。鸡蛋含有人体需要的多种营养物质,如蛋白质、氨基酸、脂肪、维生素及矿物质[1]。鸡卵的蛋白质所含氨基酸与人体组织蛋白氨基酸十分接近,因此具有极高的营养价值[2]。祖国医学认为,鸡蛋味甘平,具有滋阴润燥、养心安神,养血安胎,延年益寿之功效。鸡蛋是有蛋壳、蛋白、及蛋黄组成。具体结构如图2:

王娇娇等采用扫描电子显微镜获得蛋壳的超微结构图像,提示鸡蛋壳上具有乳突及孔隙,是鸡蛋呼吸的主要门户[3]。

鸡蛋由外向内结构依次是①卵壳:最外层,质硬,有碳酸钙等矿物质组成。对鸡蛋内容物起保护作用。②外层卵壳膜:是层无结构纤维膜,主要是保护鸡蛋内容物水分不丢失。③内层卵壳膜:是一种可透气膜,空气可以进出。④气室:位于鸡蛋的钝端内(在大头两层蛋壳膜之间),是由两层蛋壳膜之间常分开形成一个小气室,贮存空气,具有胚胎发育时供应其呼吸功能[4]。⑤系带:卵黄的两端由浓稠的蛋白质组成卵黄系带,其功能是维持卵细胞共定于蛋白中心位置。对卵细胞具有起着缓冲作用,可防止卵细胞的震荡。⑥卵黄膜:位于卵白与卵黄之间的一层薄膜,是卵细胞的组成部分。⑦卵黄:呈黄色,位于细胞的中央,是鸡卵胚胎发育的主要营养物质。⑧胚盘:位于卵黄表面中央有一圆形盘状小白点,呈蝌蚪状等,卵白:卵壳膜与卵黄膜之间,为胚胎发育提供水和营养物质,卵黄表面中央有一圆盘状的小白点(就是在蛋黄上看到的小白点)称为胚盘,里面含有细胞核,未受精的卵,胚盘色浅而小,已受精的卵,胚盘色浓而略大,这是因为胚胎发育已经开始[5],如果是受精卵,胚盘在适宜的条件下就能孵化出雏鸡,胚盘进行胚胎发育的部位[6-7]。

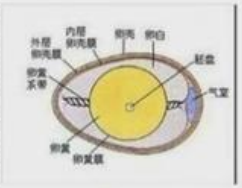

图2

我们知道,蛋白质加热后可以变性,那么,熟鸡蛋经过100℃开水煮23分钟,整体上鸡蛋内容物均有液态变成固态,在返生过程中,不添加任何化学物质,不进行任何物理处理,如加温或者降温,电离辐射等。这是为什么?

鸡卵细胞的由卵黄膜、卵黄和胚盘等组成,卵细胞是否变性,如果变性,即使返生为液态,也难以孵化成雏鸡。这是为什么?欢迎讨论问题如下:

(1)鸡蛋加热煮熟过程,蛋白质是否变性?(2)胚盘是否失去活性?(3)卵细胞是否还有再生能力?(3)熟鸡蛋返生可能存在的生物学现象?(4)熟鸡蛋返生的物理化学原理?(5)其他?

- 设定问题
- 研究设计
- 研究过程
- 组织材料
- 撰写初稿
- 修改定稿

科研论文的八股结构

- ①题目;
- ②作者;
- ③作者单位;
- ④摘要;
- ⑤关键词;
- ⑥正文;
- ⑦致谢;
- ⑧参考文献。

题目（Title，Topic）

- 题目是文章最重要和最先看到的部分, 应能吸引读者（hook）, 并给人以最简明的提示。“良好的开端是成功的一半”，一般有如下要求：
  - 1. 简洁明了，突出文中独创性、有特色的内容
  - 2.字数不应太多, 一般不宜超过20个字。
  - 3. 应尽量避免使用符号、简称、缩写等。题目中尽量不要用标点符号（：？）
  - 4.必要时可用副标题来做补充说明。副标题起补充说明特定方法、内容的作用（基于x方法，基于y视角/理论）。
  - 5.若文章属于“资助课题”项目, 可在题目的右上角加注释角号（如 ※、＃等）, 并在脚注处（该文左下角以横线分隔开）书写此角号及其加注内容。
  - 6.为了便于对外交流, 应附有英文题名

选题的来源

  - **Social Problem（IT如何处理雾霾）**
  - **Research Question（如何预测雾霾）**
- 数据驱动
- 案例驱动
- 项目驱动
- 邀约驱动

数据集

- 北京市某医院的医疗数据库
- 该数据库包含2016年11月至2018年3月期间311429名60岁以上老年患者的相关诊断数据
- 该数据库包括有关患者的详细信息，如人口统计、入院、诊断结果和交费等信息，一共1024712条数据
- 首先对数据进行去重和对接，然后对于存在大量仅有一种疾病的老年患者记录进行删除
- 为了探索疾病序列，最后留下患有两种以上疾病的患者共有40999名

研究方法-时间序列结构

作者姓名和单位（Author and Department）

- 作用
  - 表明文责自负
  - 排序是反映作者对本科研成果的贡献大小
  - 便于读者联系
- 类别
  - 第一作者（导师？ or 学生？）
  - 第二作者
  - 通讯作者（Corresponding Author）

摘要（Abstract）

- 摘要是科研论文主要内容的简短、扼要而连贯的重述，必须将论文本身新的、最具特色的内容表达出来（重点是结果和结论）。
- 摘要能使读者不读全文就能获得必要的信息，即主题范围即内容梗概。
- 摘要是文章的门面。

摘要的类型

- “结构式摘要” 和“非结构式摘要”两种
- 结构式摘要
  - 一般分成目的、方法、结果和结论四个栏目，一般250字左右；
  - 目前国内大多数的医学、药学期刊都采用“结构式摘要”。
- 非结构式摘要
  - 不分栏目，有的要求不超过150个字或250个字，也有不要求的。

关键词（Keyword）

- 关键词也叫索引词， 主要为了：
  - 图书情报工作者编写索引；
  - 读者通过关键词查阅需要的论文；
  - 你希望被分配到什么样的审稿人。
    - 第一关键词
    - 电子商务？ or 数据挖掘？

关键词的选取

- 关键词是从论文中选出来用以表示全文主题内容的单词或术语，要求尽量使用规范性词（称叙词或主题词）。
- 关键词一般选取3～5个词，最多8个
- 每个词之间应留有空格以区别。
- 前几个从论文标题中选，后面几个从论文内容中选。
- 增加关键词数目，可以提高文章的引用率。
- 标注与中文一一相对应的英文关键词。

摘要和关键词的示例1

Intrinsic motivation
Extrinsic motivation
Online health community
Mental health service provider
Voluntary behavior

ABSTRACT

Background: Normal users' voluntary behaviors (e.g., knowledge sharing) in virtual communities (VCs) has been well investigated; however, research on health professionals' voluntary behaviors in online health communities (OHCs) is limited.
Objective: This paper focuses on OHCs for mental health and aims to explore how intrinsic and extrinsic motivations influence mental health service providers' voluntary behaviors.
Methods: Based on motivation theory and prior studies, we incorporated technical competence as intrinsic motivation and online reputation and economic rewards as extrinsic motivations, and proposed five hypotheses. We crawled objective data from YiXinLi, a Chinese OHC for mental health, and tested the hypotheses based on the Poisson regression model. All hypotheses are supported.
Results: 1) Technical competence, online reputation, and economic rewards positively influence mental health service providers' voluntary behaviors; 2) the interaction effect between technical competence and online reputation negatively influences mental health service providers' voluntary behaviors; 3) the interaction effect between technical competence and economic rewards negatively influences mental health service providers' voluntary behaviors.
Conclusions: Both intrinsic motivations and extrinsic motivations positively influence mental health service providers' voluntary behaviors, and their interaction effects negatively influence mental health service providers' voluntary behaviors. This study first contributes to the literature on health professionals' voluntary behaviors in OHCs by verifying the positive effect of economic rewards. It then contributes to motivation theory by incorporating a situation where intrinsic motivations and extrinsic motivations could negatively interact.

REJECTED

摘要和关键词的示例2

Abstract

Background: Online health care service has become an effective supplementary way for traditional medical treatment. The development of online health care services depends on sustained interaction between health care professionals (HCPs) and patients. Therefore, it is necessary to understand the demands and gains of health care stakeholders in HCP-patient online interaction and determine an agenda for future work.

Objective: This study aims to present a systematic review of the antecedents and consequences of HCP-patient online interaction. It seeks to reach a better understanding of why HCPs and patients are willing to interact with each other online and what the consequences of HCP-patient online interaction are for health care stakeholders. Based on this, we intend to identify the gaps in existing studies and make recommendations for future research.

Methods: In accordance with the PRISMA guidelines, a systematic retrieval was carried out from the electronic databases Web of Science, PubMed, and Scopus. The search results were confined to those papers published in English between January 1, 2000 and June 30, 2018. Selected studies were then evaluated for quality; studies that did not meet quality criteria were excluded from further analysis. Findings of the reviewed studies related to our research questions were extracted and synthesized through inductive thematic analysis.

Results: A total of 8440 records were found after the initial search, 28 papers of which were selected for analysis. Accessibility to HCPs, self-management, and unmet needs were the main triggers for patients to participate in online interaction. For HCPs, patient education, career needs, and self-promotion were the major reasons why they took the online approach. There were several aspects of the consequences of HCP-patient online interaction on health care stakeholders. Consequences for patients included patient empowerment, health promotion, and acquisition of uncertain answers. Consequences for HCPs included social and economic returns, lack of control over their role, and gaining more appointments. HCP-patient online interaction also improved the communication efficiency in offline settings and helped managers of online health care settings get a better understanding of patients' needs. Health care stakeholders have also encountered ethical and legal issues during online interaction.

Conclusions: Through a systematic review, we sought out the antecedents and consequences of HCP-patient online interaction to understand the triggers for HCPs and patients to participate and the consequences of participating. Potential future research topics are ithe influences on the chain of online interaction, specifications and principles of privacy design within online health care settings, and roles that sociodemographic and psychological characteristics play. Longitudinal studies and the adoption of text-mining method are worth encouraging. This paper is expected to contribute to the sustained progress of online health care settings.

IJCAI-21 CALL FOR PAPERS

Important Dates:

- Submission site opening: December 30, 2020
- Abstract submission deadline: January 13, 2021 (11:59PM UTC-12)
- Author information deadline: January 16, 2021 (11:59PM UTC-12)
- Full paper submission deadline: January 20, 2021 (11:59PM UTC-12)
- Summary reject notification: February 07, 2021
- Author response period: March 24-28, 2021
- Paper notification: April 30, 2021

Formatting guidelines, LaTeX styles, and Word template: https://www.ijcai.org/authors_kit

Submission site: https://cmt3.research.microsoft.com/IJCAI2021

正文八股结构

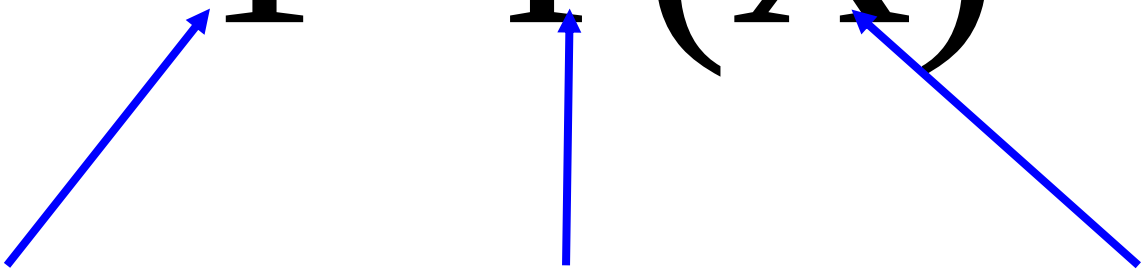

- 1、引言（以问号结尾提出研究问题）
- 2、理论和文献综述（指出已有研究的不足）
- 3、模型与假设
- 4、研究过程（方法、数据、实验等）
- 5、分析与讨论
- 6、结论
- 7、局限
- 8、未来的工作

引言（Introduction）

- 引言（导言、序言）作为论文的开端，起纲领的作用，主要回答“为什么研究”这个课题。
- 内容，主要是简介：
  - 论文的研究背景、目的、范围
  - 研究的意义以及前人的主张和学术观点
  - 论文拟解决的问题、研究方法和数据来源
  - 有的也给出结论和创新点
  - 还有的给出论文的结构等。

- **1. Introduction**

【人口老化】The world's population is ageing, and every country in the world is experiencing growth in the number and proportion of older adults in the population (United Nations, 2017). Across studies of population health, due to the physical and psychological losses, age is nearly always as the most powerful predictor of the state of people's health and the prevailing risks of morbidity and mortality they face (Baltes et al., 2005). 【老年人获取和分享健康信息】Connecting with older adults is even more critical as, in general, older adults have more health concerns, and therefore they need more health information (Sheng & Simpson, 2013; Jin et al., 2017), which may be defined as information on a continuum between health education and health promotion (Rolinson,1996). In everyday situations, in addition to acquiring health information to support health self-management (Xie, 2008), older adults also collect and share health information with others to satisfy the sense of meaningfulness in their old age, filling in the self-loss caused by withdrawal from social role (Baltes et al., 2005).

【社交媒体成为健康信息的重要来源】With features such as huge user base, easy access, and high levels of interactivity (Xiang & Stanley, 2017), social media has become a valuable source of health information and deeply changed how health information is disseminated and received in a networked environment. Hence, there is a large number of people who choose to use social media to make or perform decisions when encountering healthcare issues (Vollum, 2014). 【研究情境：微信】In particular,

增强逻辑性2/2

1. Introduction

【信息共享的好处，突出信息共享的重要性】

Inter-agency information sharing, as its importance is increasingly recognized, has become a new goal of governments around the world (Yang & Maxwell, 2011). It can reduce duplicate data processing and collecting, improve decision-making ability and accountability of government projects, and leverage service efficiency and government responsiveness, then achieve precise governance (Bigdeli, Kamal, & De Cesare, 2013; Ramon Gil-Garcia, Chengalur-Smith, & Duchessi, 2007).

【为什么要对信息共享的影响因素进行研究，以及为什么要区分水平维度和垂直维度】

Although inter-agency information sharing brings a lot of benefits, its achievement is a great challenge for government agencies. Inter-agency information sharing not only requires involving agencies to share information, but may also need them to reengineer and integrate business processes as necessary(Bigdeli et al., 2013; Lam, 2005; T. Pardo & Tayi, 2007). In addition, information privacy, cost, power and other things also should be concerned (Yang & Maxwell, 2011). In practical, most information sharing projects in government are difficult to launch. However, it's interesting that vertical inter-agency

数据

- **数据：实验数据、访谈数据、案例数据、日志数据**
- **实验应注意的问题：**
  - 要保留实验数据
  - 要保留程序代码
  - 要保留原始记录
- **论文发表的要求：**
  - 实验数据的保存和共享已经成为一个严重的问题（见9月10日出版的《自然》杂志刊登社论——《数据的可耻忽视》（Data‘s shameful neglect））
  - 将实验数据以及算法程序打包上传到服务器，供大家下载使用

分析与讨论

- 讨论应从结果出发，紧扣题目，不宜离题发挥。具体地说应对本实验所观察到的结果，分析其理论和实践意义，能否证实有关假说的正确性，找出结果中的内在规律，与文献对话。
- 篇幅较长的讨论，应分条目编写， 并冠以序码。讨论中不应过细重复以上各部分的数据。
- 讨论不应简单地重复实验结果，而是从理论上有选择地对研究结果进行分析、比较、解释、推理，对主要问题，特别是本研究创新、独到之处加以充分发挥，提出新的假说，揭示有待进一步研究的问题及今后的研究方向。

致谢Acknowledgements

- 致谢一般单独成段,放在正文的后面。
- 对经费资助单位，论文选题指导老师，实验数据测定的工作人员等表示感谢。
- 凡不具备前述作者资格, 但对本研究作过指导、帮助的人或机构,均应加以感谢，但必须得到被致谢人的同意后才能署其姓名。

AMR审稿的七大关键问题

- **1.What's new？这篇论文对当前的思考做出了重要的、增值的贡献吗？**
- **2. So what？这个理论有可能改变组织科学在这个领域的实践吗？与研究的联系是否明显？是否有针对当前理论缺陷的解决方案？**
- **3. Why so？其背后的逻辑和支撑证据是否令人信服？作者的假设是否明确？作者的观点可信吗？**
- **4. Well done？文章是否反映了经验丰富的思想，传达了完整性和彻底性？**
  - 是否包含多个理论元素（**What，How，Why， When，Where，Who**），使论文在概念上更加全面，而不是流于表面？
  - 这些论点是否反映了当前对这一主题的广泛理解？
  - 如果包含命题，是否使用正确？这个论点有什么明显的逻辑缺陷吗？
  - 作者是在一段很长的时间里，从大量的同行信息中得到启发，发展出这些思想的吗？

AMR审稿的七大关键问题

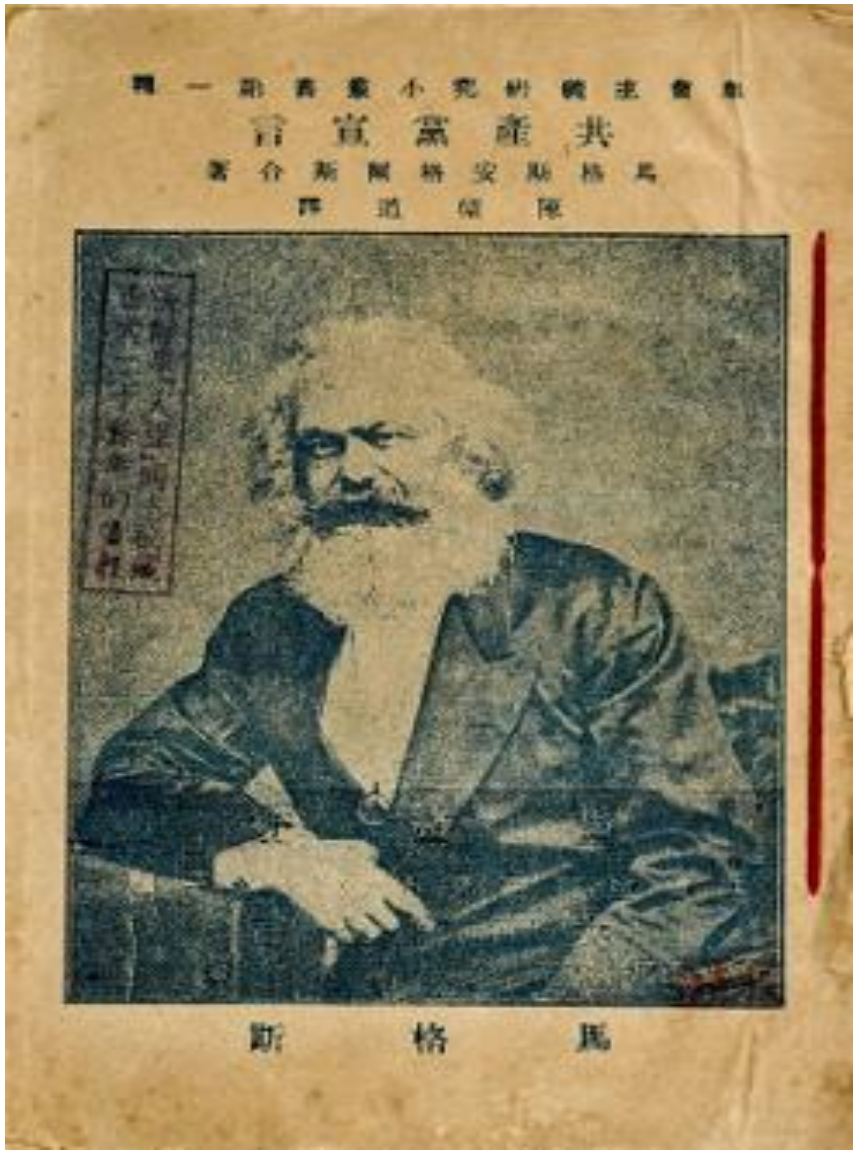

- **5. Done well？论文写得好吗？它是否合乎逻辑？中心思想容易理解吗？阅读令人愉快吗？这篇论文是否足够长以涵盖主题，但又足够短以引起兴趣？论文的排版是否反映了高的专业标准？论文的格式和内容是否与投稿人须知中的规格一致？**
- **6. Why now?这是当代学者在这个领域感兴趣的话题吗？它会促进当前的讨论，刺激新的讨论，还是重振旧的讨论？**
- **7.Who cares？有多少学术读者对这个话题感兴趣？**

稿件修改

- 诵读法，初稿完成后，诵读几遍，一边读，一边思考，把文气不接，表达不完整，解释不详尽的地方修改过来。
- 搁置法，将文稿放置一段时间，等到头脑清醒，思路清晰后，再拿出来看看。“文章不厌百会改”，通过反复推敲、修改，使文章尽可能达到完美高度。
- **Read Loudly**
- **Double Check**

中国共产党（共党产？）

Desk Reject1/2

Thank you for submitting your manuscript to International Journal of Medical Informatics. I regret to inform you that your paper is not acceptable for publication. We have completed the review of your manuscript and a summary is appended below. The reviewers have advised against publication of your manuscript and I must therefore reject it at this time. For your information and guidance, any specific comments explaining why I have reached this decision and those received from reviewers, if available, are listed at the end of this letter.</p>

You have the option of resubmitting a substantially revised version of your paper, which would be considered as a new submission. If you decide to do this, you should refer to the reference number of the current paper and include a cover letter which explains in detail how the paper has been changed or not, in reply to the Editor and Reviewer comments.

Thank you for giving us the opportunity to consider your work.

Kind regards,

Heimar Marin

Editor-in-Chief

Desk Reject2/2——Hope

Dear Author(s):

I found the article interesting. However, it does not follow the instructions. The limit of words for research articles is 3,000 and 4,000 for reviews. Those numbers are for the main text. Please, check the instructions. However, considering as an important topic, I propose an invitation for resubmit.

Thanks for considering IJMI.

Heimar F. Marin, PhD, FACMI

Editor-in-Chief

Rebutal——反驳信/解释信

Dear authors,

IJCAI-21 author rebuttal period starts today. Now you can get access to reviews of your submission in the CMT system (https://cmt3.research.microsoft.com/IJCAI2021) using your submission account.

We are glad to report that among submissions coming into the IJCAI-21 full-paper review phase, 78.3% of submissions received 5 or more reviews; only less than 2.5% of submissions received only 3 reviews (3 is the least number of reviews received for each full paper).

The IJCAI-21 author rebuttal phase should be understood as an "appealing" process, and it is NOT a must for you to write a rebuttal. Please carefully read the CFP/FAQ, especially FAQ.[author rebuttal] (https://ijcai-21.org/ijcai-21-faq/#author-rebuttal) to get a better understanding of the process.

The rebuttal submission function will be closed on 11:59 PM UTC-12, Mar.28.

令人无语的退稿函

消息内容

发送时间：2020-08-14 09:45

退 稿 函

您的稿件经专家审定及研究后，不拟采用。限于人力，简要提出如下意见，不一定正确，谨供参考。恕不退原稿。谢谢您对本刊的支持，并望继续供稿，多提宝贵意见和建议。

内容：

1、本文类似的内容已见诸有关杂志或教科书，缺乏新内容。

2、已有类似内容的文稿待编中，限于篇幅，不能重复一一采用。

3、观察例数太小，实验设计不够周密，或缺乏必要的严格对照和统计学处理；诊断依据尚感不足或疗效说服力不够。建议继续积累资料，加强科学性。

4、建议转投他刊。

Dear authors!
Thank you for submitting a revised version of your manuscript with the former title "What are the Causes and Consequences of Healthcare-Professional-Patient Online Interaction? A Systematic Analysis of Existing Studies", which was amended to "What are the Antecedents and Consequences of Healthcare-Professional-Patient Online Interaction? A Systematic Analysis of Existing Studies". I appreciate the changes made and, in my opinion, the quality of the manuscript has improved significantly. I have also looked through the other reviewer's comments and, from my point of view, you have addressed nearly all of the raised concerns in a satisfactory way.

The present revised manuscript is the result of a commendable effort of a very thorough revision round. I am really impressed by the extremely diligent manner with which you have addressed the raised concerns. I have rarely seen such a well-formulated and nicely structured and comprehensive authors' response letter before. To sum up, I think that the manuscript has really improved through the revision and it makes a nice contribution to literature.
At the same time, some more or less minor concerns are still to be addressed before the manuscript can be published. So, I hope that you will interpret my additional comments as constructive criticism and I would be pleased if you managed to tackle them properly in order to make your manuscript publishable soon.

You can only upload a revised manuscript if the most recent editorial decision was minor/major revisions required or "accept" (in order to upload your final vers
before the manuscript has been forwarded to the copyeditor. In this case, the manuscript was forwarded to the copyeditor on 2019-08-05.

A letter from the frustrated author of a journal paper

ELSEVIER

Editor's Corner

A letter from the frustrated author of a journal paper

Editor's Note: It seems appropriate, in this issue of JSS containing the findings of our annual Top Scholars/Institutions study, to pay tribute to the persistent authors who make a journal like this, and a study like that, possible. In their honor, we dedicate the following humorous, anonymously-authored, letter!

Dear Sir, Madame, or Other:

Enclosed is our latest version of Ms. #1996-02-22-RRRRR, that is the re-re-re-revised revision of our paper. Choke on it. We have again rewritten the entire manuscript from start to finish. We even changed the g-d-running head! Hopefully, we have suffered enough now to satisfy even you and the bloodthirsty reviewers.

I shall skip the usual point-by-point description of every single change we made in response to the critiques. After all, it is fairly clear that your anonymous reviewers are less interested in the details of scientific procedure than in working out their personality problems and sexual frustrations by seeking some kind of demented glee in the sadistic and arbitrary exercise of tyrannical power over hapless authors like ourselves who happen to fall into their clutches. We do understand that, in view of the misanthropic psychopaths you have on your editorial board, you need to keep sending them papers, for if they were not reviewing manuscripts they would probably be out mugging little old ladies or clubbing baby seals to death. Still, from this batch of reviewers, C was clearly the most hostile, and we request that you not ask him to review this revision. Indeed, we have mailed letter bombs to four or five people we suspected of being reviewer C, so if you send the manuscript back to them, the review process could be unduly delayed.

Some of the reviewers' comments we could not do anything about. For example, if (as C suggested) several of my recent ancestors were indeed drawn from other species, it is too late to change that. Other suggestions were implemented, however, and the paper has been improved and benefited. Plus, you suggested that we shorten the manuscript by five pages, and we were able to accomplish this very effectively by altering the margins and printing the paper in a different font with a smaller typeface. We agree with you that the paper is much better this way.

One perplexing problem was dealing with suggestions 13–28 by reviewer B. As you may recall (that is, if you even bother reading the reviews before sending your decision letter), that reviewer listed 16 works that he/she felt we should cite in this paper. These were on a variety of different topics, none of which had any relevance to our work that we could see. Indeed, one was an essay on the Spanish–American war from a high school literary magazine. The only common thread was that all 16 were by the same author, presumably someone whom reviewer B greatly admires and feels should be more widely cited. To handle this, we have modified the Introduction and added, after the review of the relevant literature, a subsection entitled "Review of Irrelevant Literature" that discusses these articles and also duly addresses some of the more asinine suggestions from other reviewers.

We hope you will be pleased with this revision and will finally recognize how urgently deserving of publication this work is. If not, then you are an unscrupulous, depraved monster with no shred of human decency. You ought to be in a cage. May whatever heritage you come from be the butt of the next round of ethnic jokes. If you do accept it, however, we wish to thank you for your patience and wisdom throughout this process, and to express our appreciation for your scholarly insights. To repay you, we would be happy to review some manuscripts for you; please send us the next manuscript that any of these reviewers submits to this journal.

Assuming you accept this paper, we would also like to add a footnote acknowledging your help with this manuscript and to point out that we liked the paper much better the way we originally submitted it, but you held the editorial shotgun to our heads and forced us to chop, reshuffle, hedge, expand, shorten, and in general convert a meaty paper into stir-fried vegetables. We could not – or would not – have done it without your input.

院士也被拒稿

- 这是发在**The Journal of Systems and Software(JSS)**的一封信，该期的内容是关于年度杰出学者/机构研究的，编辑们将此信件发在“编辑角”，觉得很适合用于表达对于这样坚持投稿和研究的作者的敬意。
- 信件作者是**Robert L. (Bob) Glass，1999年成为美国计算机协会（ACM）的会士（类比于院士级别），ACM的审查过程十分严格，目前全世界仅有五百多位ACM Fellows，华裔院士二十余人。作者的具体介绍可访问：**
- **https://en.wikipedia.org/wiki/Robert_L._Glass**

在论文修改了 5 次之后

- 这是我们最最最最最新版的论文，我们要改吐了。整个手稿又被从头到尾修改了一遍，连**running head**也没放过。现在我已经受够了，希望这次能满足你们和那些魔性的审稿人。同时：
- 我不会逐一解答了，毕竟，比起科学进展的细节，您的匿名审稿人更喜欢折磨我们这些碰巧落入他们魔掌的作者，借此来发泄自己的病态个性和性挫败，他们简直是神经病，请您不停地向他们发稿件，因为他们一旦没有稿子审了，很可能会去抢劫小老太太或者虐待小海豹。

院士作者终于怼了

- 审稿人中，C显然是最敌对的，编辑不用把我们的论文发回给他了。实际上我们已经向4-5个可能是审稿人C的人的邮箱发了文字炸弹，因此如果您将稿件发给他们的话，审查很有可能会因为某些原因被推迟。
- 您建议我们将原稿缩短五页，我们可以通过更改边距、缩小字体来快速 (efficiently)实现。
- 审稿人B建议我引用16篇文献，这16篇文献涉及主题很广，不幸得是没有一篇和我们的研究有关系，其中甚至有一篇发表在高中文学杂志上、主题是关于美国和西班牙战争的论文。这16篇文献的唯一共同点是来源为同一个作者。大概B非常钦佩这个人并且觉得这个人的论文应该被广泛引用吧。为次，我们专门在相关文献后面加了一小节内容-标题为“对无关文献的综述”。

“不共戴天”的审稿人

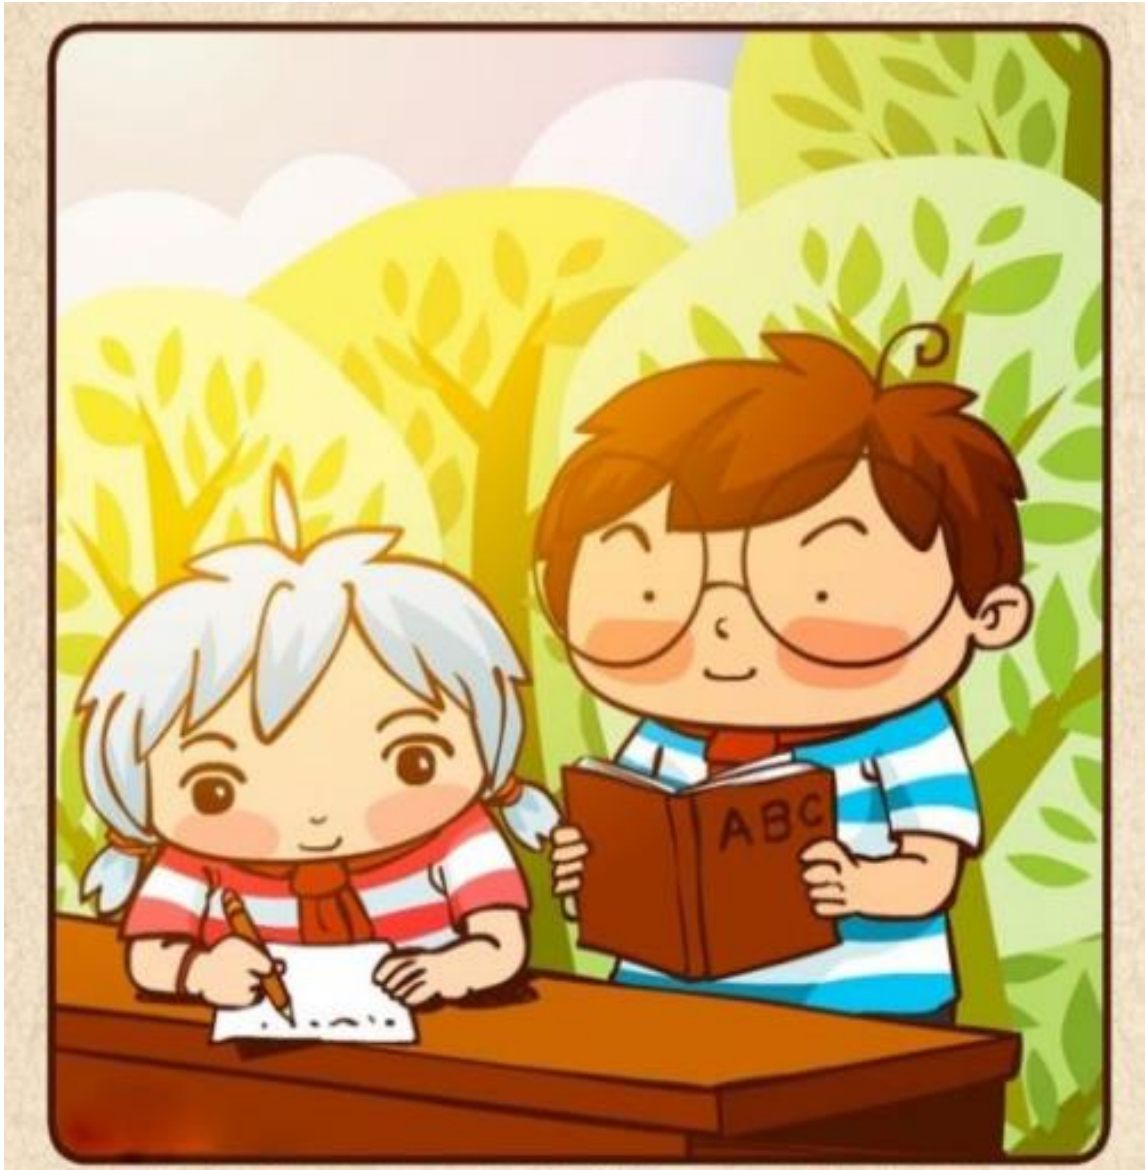

- 我希望你们能够对此次修改版本满意，并且认识到这项作品的出版是多么迫切。否则，你们就是没有丝毫人性、应该关在笼子里的怪物，我诅咒你们；当然，如果你们接受了它，我们感谢你们在此过程投入的耐心和智慧，并对你们的学术见解表示欣赏。作为报答，我们乐意给你们帮忙，因此请务必将这些审稿人下次投到贵刊的稿件发给我们。（好强的怨念，报复一下？）
- 假设你们接受了这篇论文，我们会添加一个注脚，感谢你们对这个稿件的“帮助”，并且说明我们更喜欢一开始提交的论文，它比现在的修改版本好太多了 — 在编辑拿着霰弹枪对着我们的头的压力下，一篇有滋有味的文章被改成了干瘪的炒蔬菜 **(a meaty paper into stir-fried vegetable)**。
