07 年真题

The process of gaining or losing weight can be explained by comparing your body to your car. Both run __56__ fuel, food for your body and gasoline for your car. Both __57__ that fuel, first into heat, then energy, some of __58__ is used to do work, and some emitted as waste. And __59__ your car uses more energy when the engine is racing than when it is idling, __60__ does your body use more energy when you are working hard than __61__ you are resting.

For the purpose of this comparison, __62__, there is one significant difference between them. Your car cannot store fuel by turning it into __63__ else; all gasoline not __64__ remains as gasoline. But your body stores __65__ energy as fat. When the gas tank is __66__ empty, the car won't run; but your body can burn fat to provide more energy.

Therefore, if you want to gain weight, you must do __67__ of two things: eat more calories (units of heat, therefore energy), or use less through __68__. If you want to lose weight, you do the __69__, decrease your intake of calories or increase the amount of energy you spend. There is __70__ way. Gaining or losing weight is always a relation between intake and output of potential energy.

56. A. in B. on C. for D. against

57.	A. convert	B. use	C. spend	D. burn
58.	A. what	B. which	C.it	D. them
59.	A. whereas	B. although	C. just because	D. just as
60.	A. as	B. so	C. why	D. how
61.	A. that	B. since	C. when	D. where
62.	A. however	B. therefore	C. moreover	D. likewise
63.	A. everything	B. nothing	C. something	D. anything
64.	A. filled	B wasted.	C. saved	D. consumed
65.	A. useless	B. enough	C. excess	D. extensive
66.	A. half	B. completely	C. almost	D. hardly
67.	A. any	B. both	C. either	D. neither
68.	A. inactivity	B. inattention	C. cycling	D. jogging
69.	A. reverse	B. relevant	C. different	D. same
70.	A. not any	b. no other	C. another	D. some

A presentation has two important components: what you say and 56 you deliver it. The term delivery covers a wide 57 of features of speaking and eye contact is one of them. The appropriate use of eye contact 58 from one culture to another. In some cultures, women are 59 to lower their eyes in most communication 60 ; in others, younger people must keep their eyes lowered when addressing older people.

61 , in the United States, 62 you are addressing an individual, a small group of people, or a larger audience, you are expected to look at them. You do not have to stare 63 and continuously; 64 , it is appropriate when speaking to one person to 65 occasionally.

In a small group you should look around at the different members of the group. 66 when addressing a larger audience, you should try to make eye contact with different people around the room. It is important to look at the 67 audience, not just the people in the center of the room, 68 you will probably have to turn your head and/or your body in order to make proper eye contact with people 69 at the sides of the room.

If you look at the floor or the ceiling, you will give the impression that you are not interested in your audience. A speaker establishes friendly relationship with the audience mainly 70 eye contact, and

good relationship is essential to the success of any speech.

56.	A. why	B. whom	C. how	D. where
57.	A. stretch	B. expanse	C. extent	D. range
58.	A. varies	B. alters	C. specifies	D. differentiates
59.	A. assumed	B. proposed	C. expected	D. desired
60.	A. domains	B. settings	C. scopes	D. environments
61.	A. Otherwise	B. Moreover	C. Likewise	D. However
62.	A. whether	B. either	C. though	D. unless
63.	A. constantly	B. intensly	C. properly	D. desperately
64.	A. in addition	B. for instance	C. in fact	D. on the other hand
65.	A. look away	B. look around	C. look back	D. look over
66.	A. Even	B. And	C. Thus	D. Or
67.	A. total	B. overall	C. utter	D. entire
68.	A. So	B. Yet	C. Then	D. But
69.	A. seat	B. seated	C. be seated	D. being seating
70.	A. upon	B. after	C. through	D. until

09 年真题

Nuclear energy is an efficient and convenient substitute for conventional forms of energy which were found in special geographical locations. Large amounts of __61__ and effort are required to __62__ these locations. Once the sites are found, men and equipment must be brought to tap and use these sources of energy. However, a large proportion of such sites are found only in far and __63__ places.

This increases the difficulties of __64__ these forms of energy. With nuclear energy, such difficulties are not present. Nuclear reactors can easily be built anywhere, and man does not have to compete with the 65 of nature in order to obtain the energy. For equal amounts of energy, nuclear energy is much more convenient and inexpensive to obtain than conventional sources of energy.

With nuclear energy, the amount of pollution is greatly reduced. 66 the production of nuclear energy is based on the fission (裂变) of atoms, pollution is kept to a very low level. The energy produced in the reactors is converted into heat and electricity, and these have __67__ or no pollution at all. Conventional forms of fuel, __68__, produce large amounts of pollution.

Production of nuclear energy uses the __69__ of the fission of atoms; thus, __70__ amounts of energy can be obtained from it. The world's

reserves of oil, coal and natural gas are running___71___at a tremendous rate and current estimates predict that___72___of the 21st century, most of these conventional fuels will be used up.

Nuclear energy is the exception___73___this gloomy prediction. Through splitting and fusing atoms, large amounts of energy can be produced, and___74___this process can go on and on until all our energy needs are satisfied. The___75___of nuclear energy as a boundless source of energy is indeed great, and we must harness it whenever possible as conventional fuels will not be around much longer.

61.	A. incentive	B. capital	C. interest	D. currency
62.	A. point	B. recognize	C. identify	D. label
63.	A. isolated	B. single	C. sole	D. solitary
64.	A. detecting	B. selecting	C. harnessing	D. concentrating
65.	A. potentials	B. powers	C. strengths	D. forces
66.	A. If	B. While	C. Though	D. Since
67.	A. little	B. much	C. more	D. less
68.	A. as a result	B. in general	C. on the other hand	D. in effect
69.	A. process	B. rule	C. principle	D. function
70.	A. incomplete	B. definite	C. infinite	D. defined
71.	A. out	B. up	C. away	D. down
72.	A. at the end	B. by the end	C. in the end	D. to the end

Are you single but too busy to search for love? Then you need to try the latest dating phenomenon that is sweeping__61__the UK—speed dating.

Speed dating__62__men and women meeting in a room and finding out as mush as they can about possible__63__in three minutes. It's proving very__64__with Britain's young people who find that they haven't got the time to meet that special one.

At a speed dating event you are given three minutes to talk,__65__, with a member of the opposite sex. Then a bell is__66__and you move to another person and start chatting again. By the end of the evening you will have spoken with up to twenty men or women!

If, by the end of a conversation, you__67__the person or would like to see him or her again, you write it __68__on a card. Then, if the other person also fancies you, the organisers will contact you with their details.

But is three minutes long enough to make an impression and__69__ if you want to see someone again? Research suggests that__70__can be felt within the first thirty seconds of meeting someone, and that is __71__speed dating is all about, knowing quickly if you are going to like someone.

And what about romance? Is it possible to make a good__72__in

such a short time? 73 , people say you can't hurry love. However Britain will soon have its first marriage from a speed date.

So, if you are on a 74 to find Mr. or Miss Right, what have you got to lose? 75 , you still go home on your own. But at best, the person of your dreams could be just three minutes away.

61.	A. across	B. off	C. over	D. through
62.	A. requires	B. inquires	C. involves	D. revolves
63.	A. spouses	B. partners	C. friends	D. counterparts
64.	A. popular	B. practical	C. favorable	D. normal
65.	A. all in one	B. one after one	C. one and all	D. one on one
66.	A. knocked	B. shaken	C. rung	D. swung
67.	A. attract	B. enjoy	C. fancy	D. chase
68.	A. off	B. down	C. up	D. back
69.	A. work out	B. work on	C. work at	D. work up
70.	A. emotion	B. sentiment	C. attachment	D. chemistry
71.	A. what	B. how	C. all	D. where
72.	A. conclusion	B. reflection	C. judgment	D. guess
73.	A. After all	B. In all	C. Of all	D. And all
74.	A. tour	B. route	C. mission	D. direction
75.	A. At last	B. At first	C. At end	D. At worst

11 年真题

Zoos have become an important site for the preservation and protection of wildlife resources, 61 those species that are endangered. 62 , many zoos displayed live animals for public entertainment. Presently some zoos have become scientific and educational 63 that have contributed to the understanding and conservation of wild animal populations.

64 the challenges facing modern zoos are the cost of upgrading old facilities, the struggle to obtain 65 operating funds, and the need to attract more visitors to new and entertaining exhibits.

Many 66 zoos in American cities have undergone renovation (翻新) during the last decades of the twentieth century. Among the recent trends in zoo 67 is the construction of new enclosures that resemble natural habitats (栖息地). The replacement of traditional steel bars and concrete floors 68 appropriately designed surroundings improves visitor appreciation of the animals. Such renovations may 69 stress on animals and allow them to interact with one another more naturally.

Several major zoos conduct captive propagation programs. A captive propagation program includes the breeding of 70 zoo or wild animals to obtain offspring, usually for release to 71 or for

transfer to other zoos. Captive breeding is one method of ___72___ some species from extinction.

Zoos have expanded and improved public education programs also, with education departments that develop programs ___73___ zoo exhibits. Public activities include in-school programs, zoo tours, special events, and websites. The Zoological Society of New York, for example, conducted a major project with a Western African government to monitor an elephant herd ___74___ it moved throughout its range.

The importance of zoos will increase as natural habitats are diminishing. Through their efforts ___75___ conservation, education, and environmental advocacy, zoos will continue to play a critical role in wildlife preservation throughout the world.

61.	A. superficially	B. especially	C. importantly	D. supposedly
62.	A. By that time	B. By the time	C. At one time	D. At that time
63.	A. institutions	B. associations	C. foundations	D. corporations

Why do kids hate Brussels sprouts (芽甘蓝)? Because Brussels sprouts are bitter, and kids generally don't like bitter tastes. But it's not their 61 Researchers say that a dislike for bitter and sour is a survival instinct, since most toxic substances 62 that way too. On the other hand, sweetness typically indicates that something is 63 to eat, so children are born with a 64 for sweets.

What we like to eat changes over time. As we age, we realize that 65 something tastes bitter or sour, it won't kill us, and we learn to 66 it. When we're older, we 67 some of our smell sensitivity. Humans need smell to experience flavor, which is different from taste. With our senses diminished, we'll probably begin 68 sugar and salt to our food, to heighten the flavor.

69 , there's a theory that the reason many especially "big" -tasting wines in recent years have won awards is that wine critics are getting older and finding subtle flavors 70 to sense.

If someone is 71 to detect flavors at all, he may have a taste 72 , which can be caused by a tongue injury or brain damage. Or it could be a problem with 73 . The channel that separates the mouth from the nose allows us to smell behind our nose and is 74 enjoying most complex flavors. That's why food seems 75 when we have a

stuffy nose—except chicken noodle soup. It's so salty.

61.	A. fault	B. choice	C. habit	D. regret
62.	A. feel	B. look	C. sound	D. taste
63.	A. strange	B. necessary	C. safe	D. ready
64.	A. capacity	B. preference	C. awareness	D. consideration
65.	A. now that	B. in case	C. if only	D. even though
66.	A. enjoy	B. improve	C. treat	D. alter
67.	A. form	B. lose	C. reduce	D. gain
68.	A. putting	B. balancing	C. adding	D. limiting
69.	A. In essence	B. In conclusion	C. In fact	D. In short
70.	A. softer	B. nicer	C. worse	D. harder
71.	A. unlikely	B. unable	C. impossible	D. improbable
72.	A. disorder	B. symptom	C. therapy	D. illusion
73.	A. mood	B. haste	C. flavor	D. smell
74.	A. subject to	B. liable to	C. crucial to	D. beneficial for
75.	A. delicious	B. flavorless	C. biter	D. smelly

Riding a bike is good exercise and great fun. But what do you do with a bike after you outgrow it? Nicole Basil, 12, has a terrific answer to this question. When she was 8 years old, she __46__ Pedal Power. It is a charity that collects bikes that kids have outgrown and donate them to Chicago public schools.

Since 2008, Nicole has collected and donated more than 1,000 bikes. 47 the bicycles, Pedal Power supplied riders with 400 helmets (头盔) last year. "It is important to ride __48__ on a bike, and helmets are a big part f that," Nicole says. The Wilmette bicycle & Sport Shop helps to 49 that all donated bikes are safe to ride. Each bike receives a five-minute 50 by the shop' s employees.

The bikes are given to students who have good grades and perfect attendance. Nicole says:" Some kids aren' t as lucky as other, __51__ they still do well in school. I think they should be __52__ for that." Nicole has received e-mails and phone calls from parents and teachers that say test __53__ are improving. "Bikes can take you far, " she says. " GOOD grades can take you even __54__."

Barton Dassinger is the principal of Cesar E Chavez school in Chicago. Students in his school have received bikes. It' s been a great way to 55 students to do their best," Dassinger says. "They work hard to make it

happen."

46.	A. joined	B. created	C. helped	D. reformed

14 年真题

Ironically, a study finds that we're awful gift-givers precisely because we spend too much time trying to be considerate. We imagine our friends___46___a gift that is impressive, expensive, and sentimental. We imagine the look of happiness and surprise on their faces and the warmth we feel___47___. But there's something that the most sentimental gift-givers tend not to think too much about:___48___the gift is practical in the first place.

___49___, practicality seems like an enemy of great gift giving. Beautiful jewelry, lovely watches, perfect rugs, finely crafted kitchen hardware: These things___50___great gifts because they communicate something beyond practicality. They communicate that the giver cares.

But do the receivers care? Often, no. "Gift receivers would be___51___if givers gave them exactly what they requested___52___attempting to be 'thoughtful and considerate' by buying gifts they did not explicitly request" to surprise them, the researchers write.

Their clever paper asks givers and receivers to___53___gifts from two perspectives: desirability (e.g. the cost of a coffee maker) and feasibility(e.g. the___54___of the coffee maker).Across several experiments, they find that givers consistently give gifts based on desirability and receivers___55___favor gifts based on feasibility.

15 年真题

When asked about the impact of disturbing news on children, one mother said: “My 11-year-old daughter doesn’t like watching the news. She has___46___about what she has seen. One time, she watched a report about a person who killed a family member with a knife. That night she dreamed that she too was being killed.”

Another interviewee said: “ My six-year-old niece saw reports of tornadoes(龙卷风)from elsewhere in the country. For weeks__47__, she was terrified. She___48___call me on the phone, convinced that a tornado was coming her way and that she was going to die.”

Do you think disturbing news reports can frighten children? In one survey, nearly 40 percent of parents said that their children had been 49 by something they saw in the news and that,___50___, the children had feared that a similar event would happen to them or their loved ones. Why? One factor is that children often___51___the news differently from adults For example, small children may believe that a___52___that is broadcast repeatedly is really happening repeatedly.

A second factor is that daily reports of disturbing events can distort a child ‘s___53___of the world. True, we live in “critical times hard to 54___. “

But repeated exposure to disturbing news reports can cause children

to develop lasting fears. "Children who watch a lot of TV news___55___to overestimate the occurrence of crime and may perceive the world to be a more dangerous place than it actually is," observes the Kaiser Family Foundation.

46.	A. thoughts	B. nightmares	C. ideas	D. pictures

16 年真题

The history of transportation is very long and full of changes and inventions. It starts ___46___ walking, which is not any invention; it just takes energy. People used to walk to get to other places. If you wanted to get somewhere quickly, the ___47___ way to do that was to run. Actually, the first invention for transportation ___48___ was the shoe. Centuries ago there were no shoes, and people walked barefoot.

Then people invented ___49___ to transport themselves and materials from one place to another. In some culture, people invented sledges (雪橇), ___50___ are a kind of board that you drag along the ground. You can tie things on the sledge to help carry them, but it's a challenging invention ___51___ if you hit a rock with the sledge as you pull it, the contents can ___52___.

In other cultures, people invented the wheel, which they used to make it easier to move things and people. That was the beginning of many innovations in transportation.

___53___ people had wheels they could invent other ways to travel. They could put the wheel on a board and make it a wagon, and then they could ___54___ that wagon to an ox or a horse and ride as well as carry materials.

That wheel led to ___55___ we have today: trucks, automobiles, and

even boats and planes. For example, there were steamboats that used giant wheels that turned with blades, pushing the water and pushing the boat forward.

46.	A. on	B. at	C. for	D. with
