2016 年英译汉真题

Books are steadily increasing in size: the average number of pages has grown by 25% over the last 15 years. A study of more than 2,500 books appearing on New York Times bestseller reveals that the average length has increased from 320 pages in 1999 to 400 pages in 2014. James Finlayson, who carried out the study, believed "there's a relatively consistent pattern of growth year on year". For Finlayson, much of this shift can be explained by the industry's shift towards digital. "When you pick up a large book in a shop," he says, "you can sometimes be intimidated. But if you have a big book on a Kindle (e-book), that's not a consideration. "

2015 年英译汉真题

Should work be placed among the causes of happiness or be regarded as a burden? Much work is exceedingly tiresome, and an excess of work causes stress and even disease. I think, however, that, provided work is not excessive in amount, even boring work is less harmful than idleness. We sometimes feel a little relief from work; at other times work gives us delight. These feelings arise according to the type of work we are doing and our ability to do that work. . Work fills many hours of the day and removes the need to decide what one should do.

我们应该把工作当成快乐的源泉呢?还是视它为一种负担?大量的工作让人极为厌烦，超负荷的工作还会给人造成压力，甚至引发疾病。然而，我认为，只要工作不超负荷，即便是无聊的工作也要好过闲散无事。有时我们从工作中获得慰藉；有时工作给我们带来快乐。这些感觉的产生取决于我们所从事工作的类型以及我们自身的工作能力。工作占去了我们一天当中大部分的时间，也不允许我们需要决定应该做什么。

2014 年英译汉真题

The social costs of unemployment go far beyond the welfare and unemployment payments made by the government. Unemployment increases the chances of divorce, child abuse, and alcoholism, a new federal survey shows. Some experts say the problem is only temporary—that new technology will eventually create as many jobs as it destroys. But futurologist Hymen Seymour says the astonishing efficiency of the new technology means there will be a simple net reduction in the amount of human labor that needs to be done." We should treat this as an opportunity to give people more leisure. It may not be easy, but society will have to reach a new agreement on the division and distribution.

参考译文 新的联邦调查显示出 ,失业的社会成本远远超过政府在福利与失业救济方面的开支。失业人数的递增，使得离婚、丢弃孩子、酗酒的出现概率也大大增加。一些专家认为，这个问题只是暂时的，新的科技最终创造的工作岗位跟毁掉的工作岗位一样多。但是未来学家海曼·西摩尔指出，新科技令人惊讶的效率意味着它将简单明了地减少需要我们做的大量人类劳动。西摩尔说：“我们应该把这看做一个机会，让人们有更多的休闲时间。这也许不容易，但社会必须达成劳动力分工和分配的一个新协议。”

2013 年英译汉真题

Being unhappy is like an infectious disease. It causes people to shrink away from the sufferer. He soon finds himself alone and miserable. There is, however, a cure so simple as to seem, at first glance, ridiculous: if you don't feel happy, pretend to be!

It works. Before long you will find that instead of pushing people away, attract them. You discover how deeply rewarding it is to be the center of wider and wider circles of good will.

Then the make-believe becomes a reality. Being happy, once it is realized as a duty and established as a habit, opens doors into unimaginable gardens filled with grateful friends.

闷闷不乐就像一种病 ;大家都会对染上这种疾病的人敬而远之。这种人很快就会发现自己很孤单、很痛苦。然而，这种病症有一种很简单的治疗方法，乍看起来似乎很可笑，那就是：如果你感觉不快乐，就假装快乐吧!

这个方法很有效。不久，你就会发现自己不但不会令人反感，相反，还会吸引他人。你会发现，成为广结善缘的中心人物是一件非常值得的事。

2012 年英译汉真题

In many ways the Internet has had a very positive effect on society. It has improved communication, simplified handling tasks, offered a huge convenience, enabled faster processing, and provided more options, all of which frees more time to do other things. Yet, interestingly enough, the Internet has in some ways had negative effects. The quality of communication has declined and people are impatient because they have become accustomed to instant satisfaction, and using the Internet.

2011 年英译汉真题

Over the years, we tend to think that nuclear technologies and the necessary know-how to ensure nuclear safety have been developed to a level that possibilities for any major nuclear accidents are almost non-existent and if it does happen, it will be controlled in the capable hands of nuclear engineers. However, reality has proved again that you just can't be too careful to handle nuclear energy. We don't know for sure yet what will be left behind Japan's nuclear crisis, but it will be certain that it is time to re-examine our nuclear practices and many more efforts need to be made to ensure nuclear safety in the future.

2010 年英译汉真题

An ecosystem is a group of animal and plants living in a specific region and interacting with one another and with their physical environment. Ecosystems include physical and chemical components, such as soils, water, and nutrients that support the organisms living there. These organisms may range from large animals to microscopic bacteria. Ecosystems also can be thought of as the interactions among all organisms in a given area; for instance, one species may serve as food for another. People are part of the ecosystems where they live and work. Human activities can harm or destroy local ecosystems unless actions such as land development for housing or businesses are carefully planned to conserve and sustain the ecology of the area.

生态系统指的是共同生活在某个特定区域内的动植物彼此之间以及和其所生长的自然环境之间互相影响而形成的一个整体。生态系统包括物理元素和化学元素，比如土壤、水和为生活在那儿的生物提供的营养物质。这些生物既可以是大型的动物，也可以是微型的菌类。生态系统也可以被认为是在特定地区里所有生物之间的相互作用。例如，一种生物可能充当另一种生物的食物。人类也是生态系统的一个组成部分，他们在这个系统里生活、工作。为了保护

Third-hand smoke is tobacco smoke contamination that lingers in carpets, clothes and other materials hours or even days after a cigarette is put out. According to a study, a large number of people, particularly smokers have no idea that third-hand smoke is a health hazard for people. Of the 1,500 smokers and nonsmokers surveyed, the vast majority agreed that second-hand smoke is dangerous. But when asked whether they agreed with the statement, " Breathing air in a room today where people smoked yesterday can harm your health," only 65% of nonsmokers and 43% of smokers answered "yes".

2008 年英译汉真题

Engineers are developing a new type of Internet connection that could carry so much data so quickly it might surprise even Net surfers. This technology would open up a route through which data can be sent at speeds thousands of times faster than what's possible now. If all goes to plan, the vast data speeds may soon be available to all. That might help solve the problem of how to handle the enormous growth in Internet traffic. The technology would require some new software and fiber-optic links to the PC, but otherwise no change in basic facilities.

2007 年英译汉真题

The standardized educational or psychological tests that are widely used to aid in selecting, classifying, assigning, or promoting students, employees and military personnel have been the target of recent attacks in books, magazines, the daily press and even in Congress. The target is wrong, for in attacking the tests, critics divert attention from the fault that lies with ill-informed or incompetent users. The tests themselves are merely tools, with characteristics that can be measured with reasonable precision under specified conditions. Whether the results will be valuable, meaningless, or even misleading depends partly upon the tools themselves but largely upon the user.

现在，标准化教育测试或心理测试广泛应用于协助选拔、分类、委派或提升学生、雇员和军事人员，这些测试一直是某些人近年来在图书、杂志、日报，甚至国会中抨击的目标。把这种标准化测试作为抨击的目标是不对的，因为在抨击这类测试时，批评者没有考虑其弊病来自人们对测试不甚了解或者使用不当。这些测试本身只是一种工具，其各种特征是可以在规定的条件下用相当的精度来测定的。测试的结果是有价值的，还是无意义的，甚至是误导的，在某种程度上取决于这种工具本身，但主要取决于测试的使用者。

2006 年英译汉真题

One of the chief concerns of wildlife management is the protection and improvement of the natural habitat so that animals have enough food and water to survive. Wildlife management involves care of the soil to produce good vegetation. It also involves care of plants, not only as a source of food, but also as protection. Animals need cover to hide from their natural enemies and to raise their young safely.

Just as crops are harvested, wildlife too must sometimes be "harvested". By allowing limited hunting, good management can control certain species that threaten to overpopulate their habitat.

参考译文

野生动物管理首要关注的一个方面就是保护和改进自然生态环境，以使动物有足够的食物和水来生存。野生动物管理包括保护土壤，使植被生长良好，还包括照顾植物，不仅因为植物是动物的食物，还因为植物能够保护它们，动物们需要利用植物来隐藏以躲避它们的天敌，并且安全地抚育它们的孩子。

正像农作物需要收获，野生动物有时也必须有“收获”。通过允许有限度的猎杀，好的管理能够控制某些物种，以使它们不会因为过度繁殖而威胁它们的生存环境。
