1. 先交代这个事件的社会背景
2. 引出主题
3. 表达自己的态度

- 重要的还是有害的(be of great importance/threaten to do more harm to)
- 值得重视还是应该忽视(pay attention to/cannot be ignored)
- 影响巨大的还是微不足道的(the influence: positive, negative, substantial, profound)
- 利弊对比(the benefits outweigh the so-called disadvantages.)

例题：2016 年考题：Writing (15 points)

Directions: Write a composition in no less than 150 words on the topic: What do you think of advanced artificial intelligence? You should write according to the outline given below. Write your composition on the Answer Sheet.

Recently, Google's AlphaGo defeated a human Go champion in a series of matches.

There has arisen a fear that artificial intelligence will become better than us, and will come to dominate humanity.

List and discuss the reasons why we should or should not fear.

解析 1：越“恶俗”的，越通用

第一句：5 秒：社会背景

Presently, a discussion is taking place in the mainstream media and in the general public:

第二句：15 秒：这个话题是什么？

Is it necessary for the human beings to worry about the advancement of artificial intelligence?

第三句：尽快引出自己的观点：2-4 分钟

In this issue, people around me, including my friends, classmates or colleagues, always vary in their views. If some of them ask me for my opinion, I maintain that AI is of great importance in the modern society, and its influence is essentially positive. So it is too early to predict that this technology becomes a threat to the humans, as can be seen in the following two paragraphs.

解析 2：讲究风格的，都得“背”

1) There is much discussion nowadays as to whether or not *the relationship between family members is as close as before.* *（点题）* Diverse contributing factors can be identified. In the following, I'd like to present my point of view: （自己的观点）

2) There is a dispute over + 文章主题填写. Some maintain that …, whereas others are confident that …. For my part, I share the latter point of view, and I will give major reasons and ample examples to illustrate why it is so.

二、不动第二段，先写第三段

1) 好用的太多，要注意一致性，三四句即可

2) 第三段的词句有哪些？

- 趋势是否会持续？(trend develops in the future.)
- 是否有必要建立机制、制定计划、有效管控 (an effective mechanism, a concrete plan,

efficient administration.)

- 媒体是否需要进行宣传(the media coverage should focus on…)
- 可以共存、不矛盾：they turn out to be compatible, and they can co-exist in the same social setting.
- 他们是副产品，但是毕竟不是主流，不能因为其局限性就否定全部的价值：they are the side-effects（side-products/an element）, rather than the main stream. What's more, it is unjustified to ignore its core value, while highlighting its limitation.
- 即使存在矛盾，也能有效解决：Such a conflict can be effectively avoided by ….(handled/solved/resolved/)
- 这样的人少：the people who … are few. 这样的事情不常见：the situation that … are less common.
- 不实际：… is not only impractical, but unrealistic as well, at least in the current social setting.
- 无法被科学数据、确凿的事实、好的案例验证，缺乏事实上和科学上的依据：…(doesn't/fit) runs counter to the basic scientific laws, nor can be well supported by the statistics from scientific experiments. (concrete facts)
- 小概率事件：such people are few, while the similar situations are less common.
- 和传统常识相冲突：……seems to be contradictory with traditional ideas and common sense
- 本质不同，不可混为一谈：…vary in their natures, and it is unjustified to mistake …for …
- 废话：Some readers might think that my conclusion is rather traditional or conservative, but it turns out to be not only realistic, but （also）rational as well.
- In my opinion, the issue that … appears simple at the first glimpse, but incorporates many elements far beyond individual recognition, living habits, personal values, cultural force and social ideology, all of which are deeply rooted in the contemporary society of China.

三、第二段：重点突击第二段

1. 平行结构或者让步结构
2. 头脑风暴

物质金钱　　责任爱心　　时间作息健康

便利效率沟通	安全控制	时尚传统
知识素质成功	诚信环保	文化发展

结语：这样大的学习体系，要按照章法来

1） 先首尾、再中间

2） 先中英文暗示，再其他

3） 先宏观再微观

You never write clearly, if you don't think clearly.

第三部分：中英文提示作文范文讲解（基础部分）

2）题目精解

Direction:：

2015 年考题：

Part Ⅶ Writing (15 points)

Directions: Write a composition in no less than 150 words on the topic: How can We Contribute to the Environmental Protection? You should write according to the outline given below. Write your composition on the Answer Sheet.

1. 环境保护已成为我们共同的责任。
2. 你认为我们该怎样做才能降低能耗，节省资源，保护地球环境?
3. 请举例说明。

第一步：套第一段：表态

Nowadays, (Presently,) a discussion is taking place in the mainstream media and in the general public: Is it necessary for us (each citizen) to carry out (shoulder/assume) the environmental responsibility? In this issue, people around me, including my friends, classmates or colleagues, always vary in their views. If some of them ask me for my opinion, I maintain that environmental protection is of great importance in the modern society, and its influence is essentially positive. So it is our duty to work together for a clean world , as can be seen in the following two paragraphs.

目前，在主流媒体和公众中正在进行着一个讨论。是否我们（或每个市民）有必要履行环保职责？在这个问题上，我周围的人，包括朋友、同学或者同事，总是观点各异。如果他们中的一些人问我的意见，我会认为，环保在当代社会非常重要，它的影响本质上是积极的。因此我们的责任是群策群力，为一个洁净的世界而努力，如下段所示。

第二段：让步再展开：

There's no denying the fact that an effective supervision system at the government level plays a leading role in the environmental protection. But it must be pointed out that personal efforts cannot be overlooked in this process. Here, I'd like to support my view with ample examples (concrete facts). For one thing, it is essential that each citizen form

(cultivate/enhance) the environmental awareness in his daily life. For another thing, self-discipline is another factor that deserves careful attention, particularly (such as) a good living habit and a low carbon life style. Thanks to a change of attitude and behavior, there is a future possibility that energy consumption will be reduced, and more resources will be reserved (或者 conserved). And the most important of all, natural balance is achieved (kept/ /sustained). When this situation continues, each person will live in a beautiful and harmonious world, enjoying fresh air, blue sky and clean water.

不可否认，一个建立在政府层面上的有效监督制度在环保方面起到首要作用。但是必须指出，个人的努力在这个过程中也不能忽略。这里我想用充分的例证（具体的事实）来支持自己的观点。一方面，每个市民都应该在日常生活里形成环保意识。另一方面，自律性也是一个值得注意的因素，尤其是（如）好的生活习惯和低碳生活方式。由于态度和行为上的改变，未来就有可能降低能源消耗，更多的资源可以得到节约，更重要的是，自然平衡可以实现。当这种情况持续的时候，每个市民都将生活在美丽和谐的世界，享有着新鲜空气，蓝色天空和干净的水。

第三段：套模板

I'd like to emphasize my point of view in the first paragraph: Environmental protection is an accepted opinion in each social group. And as a trend, it will probably develop in the near (predictable) future. Generally, three factors are crucial in this issue: an effective feedback mechanism, an efficient administration and a complete plan. Meanwhile, the media coverage should focus on the cultivation of environmental awareness. But I still hold the opinion that nothing can replace personal effort, individual contribution and public participation. This remark might be traditional and conservative, but it is at least realistic and rational.

我想强调在第一段中的观点：环保是每个社会团体都接受的观点。作为一种趋势，它在近期（可预测的未来）将继续存在。总体而言，三个因素很重要：有效反馈机制，有效行政管理以及完整计划。与此同时，媒体的宣传应该焦注在环保意识的培养上。不过我还是坚持这种观点，那就是内什么可以替代个人努力，个体贡献和公共参与。这种观点也许传统而保守，但是它至少是现实而理性的。

2. 诚信题型的写法：（没考）

1） 二段写作思路

- 利益（benefit）
- 利润（profit）
- 自律(self-discipline)-职业操守(work ethics)
- 态度和行为(attitude and behavior)
- 责任(responsibility)
- 信誉(reputation)
- 政府的公信力

2）题目精解：

Direction:

In recent years, having safe food on our dining table has been the concern of the public as well as the government.. In this part, you are required to write a composition entitled *My Views on Food Safety* in no less than 150 words. Please write your composition on the Answer Sheet.

1. Show your understanding
2. Support your view with examples
3. Give some advice

参考范文：

Nowadays, a discussion is taking place in the mainstream media. Is it necessary to emphasize the central position of food safety in the modern society? In my view, food health is of great importance, and its role cannot be overlooked, as can be seen in the following paragraphs.

现在，在主流媒体中进行着一个讨论。是否有必要在当代社会强调食品安全的中心地位？在我看来，食品健康十分重要，它的作用不可忽略，如下段所示。

There is no denying the fact that various kinds of foods provide people with rich nutritional elements, tremendously improving the physical health of many citizens. However, it must be pointed out that some illegal activities are brining negative effects to the consumers.

And it is essential that these activities be brought under direct control. Here, I'd like to support my view with some concrete facts. For one thing, the so-called legal persons of some food companies care nothing but their immediate profit, but what they lack are occupational self-discipline, work ethics and honest attitude. Meanwhile, these people seldom shoulder their social responsibility, disregarding rules concerning food production. Without a positive attitude (a slack supervision system), these food manufacturers are bringing serious damage to people's health. When this situation continues, the consumers' confidence to the food products will probably vanishing quickly. In this sense, it is necessary to punish those illegal activities in the food industry. In some extreme cases, death penalty is one of options. 不可否认，各式各样的食品给市民提供丰富营养成分，极大地促进了很多市民的健康。但是必须指出，一些不法活动正在给消费者带来负面影响。而这些活动必须处在直接控制之下。这里我想要用一些具体事实支持我的观点。一方面，一些食品公司的所谓法人只关心眼前利润，而它们缺少的却是社会责任感，职业操守和城市态度。与此同时，这些人很少承担社会责任，无视食品生产的相关法规。没有积极的态度，这些食品生产厂商正在给人们的健康带来严重的破坏。当这种情况持续的时候，消费者对于食品产品的信心也许会快速消失。从这个意义上讲，很有必要惩罚这些在食品业中的非法行为。在一些极致的情况下，死刑也是选择之一。

To sum up, I'd like to emphasize my point of view in the first paragraph. Food quality plays a leading role in the everyday life of many consumers in China. And as a trend, it will probably develop in the near (predictable) future. Generally, three factors are crucial in this issue: an effective feedback mechanism, an efficient administration and a complete plan. Meanwhile, the media coverage should focus on the central role of food safety. And in the issue of food health, I also hold the opinion that nothing can replace personal effort, individual contribution and public participation. This remark might be traditional and conservative, but it is at least realistic and rational.

我想强调在第一段中的观点：食品质量在很多中国消费者的日常生活里起到重要作用。作为一种趋势，它在近期（可预测的未来）将继续存在。总体而言，三个因素很重要：有效反馈机制，有效行政管理以及完整计划。与此同时，媒体的宣传应该焦注在食品安全的中心作用上。在食品健康的问题上，我还持有自己的观点，那就是内什么可以替代个人努力，个体贡献和公共参与。这种观点也许传统而保守，但是它至少是现实而理性的。

3. 文化交流话题的写法：（没考）

1）写作思路

- 悠久的历史（a long history）
- 智慧和文明（wisdom and civilization）
- 文化遗产(heritage)
- 文化的演变（cultural evolution）
- 文化价值（cultural values）
- 国际形象（international image）

2) 例题讲解：

Direction:

有人认为，在经济发展的时代，儒家思想(Confucianism)已经过时了，你是否同意这个说法？

1) 表达自己的态度

2) 支持自己的态度

3) 给出自己的看法

第一段：

What is the relationship between economic growth and Confucianism? Some researchers maintain that economic benefits are central of all things, so Confucianism is no longer as important as it used to be. Personally, I disagree with such a point of view, as can be seen in the following paragraphs. 经济发展和儒家思想的关系是什么？一些研究者认为，经济效益是重中之重，因此儒家思想已经不再像以前那样重要了。从个人角度，我反对这种观点，如下段所示。

There is no denying the fact that economic growth cannot be ignored in the national strategy. But it must be pointed out that Confucianism is still an indispensable element in a country under rapid development. For one thing, this philosophical school has a long history in China. For another thing, its profound thought represents heritage and wisdom that belong to those leading thinkers in ancient China. As a result, the development of Confucianism

symbolizes cultural evolution of the Chinese civilization. It is improper to think that it is out of date, because this school of thought has great cultural values in its birthplace, showing an image in the international community. 不可否认，经济发展在国家战略中不能被忽略。但是必须指出，儒家思想对于一个处在快速发展的国家而言，依然是不可缺少的因素。一方面，这种哲学流派在中国有悠久的历史，另一方面，它深奥的思想代表着遗产和智慧，它们属于古中国杰出的思想家。因此，儒家思想的发展象征着中国文明的文化演变。认为它已经过时是非常不恰当的，因为这种思想流派在它的发源地具有巨大的文化价值，呈现出在国际社会上的形象。

To sum up, I'd like to emphasize my point of view in the first paragraph: Confucianism co-exists with economic growth in China. Both of them are major parts in the great rejuvenation of the Chinese nation. 总之，我想强调第一段的观点：儒家思想可以与中国的经济发展共存。这两者都是中华民族复兴的主要部分。

基础段结语

1）结构是固定不变的

2）需要积累第二段的写作素材和题目

3）注意第一篇的准备：一形不精，不可练他形
