长难句考点详解

1、定语从句

On the whole, such a conclusion can be drawn with a certain degree of confidence, but only if the child can be assumed to have had the same attitude towards the test as the others with whom he is being compared, and only if he was not punished by lack of relevant information which they possessed.

Behaviorists suggest that the child who is raised in an environment where there are many stimuli which develop his or her capacity for appropriate response will experience greater intellectual development.

The Greeks assumed that the structure of language had some connection with the process of thought, which took roots in Europe long before people realized how diverse languages could be.

This assumption rests on the fallacy of the inherent laziness in human nature; actually, aside from abnormally lazy people, there would be very few who would not want to earn more than the minimum, and who would prefer to do nothing rather than work.

Although Gutman admits that forced separation by sale was frequent, he shows that the slaves′ preference,revealed most clearly on plantations where sale was infrequent,was very much for stable monogamy.

This preference for exogamy,Gutman suggests,may have derived from West African rules governing marriage,which,though they differed from one tribal group to another,all involved some kind of prohibition against unions with close kin.

2、非谓语动词

非谓语动词的结构：分词（分词短语）

句子的主语决定非谓语动词中的分词是用主动还是被动形式。如果是句子的主语发出动作，则使用现在分词；如果动作不是由句子的主语发出，则使用过去分词。

分词与从句的关系：

分词做定语（中心词+分词短语）→限定性定语从句

分词做状语（中心词+，+分词短语）→非限定性定语从句

Even when we turn off the beside lamp and are fast asleep, electricity is working for us, driving our refrigerators, heating our water, or keeping our rooms air-conditioned.

Taking the train, the two friends arrived in Berlin in late October 1922, and went directly to the address of Chou-En Lai.

With the prices and house rents increasing rapidly, many young university graduates cannot earn their living, let alone support parents.

3、被动语态

1）主动语态变被动语态的方法

主动语态变被动语态要遵循以下的规律："主（语）变宾（语），宾（语）变主（语），动词变 'be + done' ，其余部分带下来。"

2）几种特殊句型的被动语态

①含有双宾语句子的被动语态

②含有复合宾语句子的被动语态。

③含有情态动词句子的被动语态。

④含有动词词组句子的被动语态。

⑤含有宾语从句的被动语态。
