1 考试介绍及备考特点

题型、题量、分值及参考时间一览表

题号	题型	题量	题分	应得分数	时间(分钟)	时间(分钟)
I	口语交际	10题	10	6-10	15	10
II	词汇	10题	10	5-7	10	5-8
III	阅读理解	25题	25	≥15	45	55-60
IV	完型填空	10题	10	5-7	10	8-10
V	短文完成	20题	20	≥14	20	10-15
VI	英译汉	约100词	10	5-6	20	20
VII	写作	约150词	15	8-10	30	20-30
总计			100分		150分钟	150分钟

1 阅读介绍

重点题型！

- 绝对重要：阅读理解（分值总量比重最高）
- 本部分共设25题，每题1分。考试时间为45分钟。阅读理解的短文为5篇，每篇300～400个单词，要求考生在理解短文的基础上从每题所给的4个备选答案中选出一个最佳答案。

（每日做两篇阅读，尤其是真题，精读并琢磨出题人思维）

2 常见困难及应对策略

一般存在如下三类问题：

- 读不懂文章，对于复杂句尤其是长句、多义词及难词理解有误。阅读的基本功还有待提高。
- 文章读得懂，但抓不住重点，不知道到文章的什么地方去找答案，他们常常抱怨时间不够，来不及答题。
- 部分水平较高的学生，尽管不存在上述问题，可以读懂文章，也知道答案在文章中所处位置，但由于受到陷阱题的蒙蔽而犯错误，事后会觉得冤枉。

2 常见困难及应对策略

➢长句难句看不懂，怎么办?

首先找到主句的主体部分（即主语、谓语和宾语），再确定从句的主体部分，如果从句中还有从句，在确定下面一层从句的主、谓、宾。注意阅读时一层一层进行，先把同一层次的内容看完，再看下一层次的内容。

2 常见困难及应对策略

eg. The American economic system is , organized around a basically private-enterprise , market-oriented economy // in which consumers largely determine what shall be produced by spending their money in the marketplace for (those goods and services that they want most).

【词汇】private-enterprise：n. 民营企业 market-oriented: adj. 以市场为导向

“美国的经济是以基本的私有企业和市场导向经济为架构，//在这种经济中，消费者很大程度上通过在市场上为那些他们最想要的货品和服务付费，来决定什么应该被制造出来。”

2 常见困难及应对策略

eg. “A survey of new stories in 1996 reveals that the antiscience tag has been attached to many other groups as well, //(from authorities who advocated the elimination of the last remaining stocks of smallpox virus to Republicans who advocated decreased funding for basic research.”）

“1996年进行的一次对新书的调查显示，“反科学”的标签也被贴在了很多别的人群的身上，//包括提倡根除残余的天花病毒的权威机构，以及提倡削减基础科学研究资金的民主党人。”（这句话就是在that引导的宾语从句中，又套入了两个who引导的定语从句。）

2 常见困难及应对策略

- 文章读得懂，但抓不住重点，时间不够，来不及答题，怎么办？

（1）文章首段、每段的首句需理解透，快速把握全文内容。能够抓住作者的文章的主题，及文章的脉络，这样就越读越明白，而不会只见树木，不见森林。

2 常见困难及应对策略

(1) We tend to think of plants as the furniture of the natural word. They don't move they don't make sounds, they don't seem to respond to anything -at least not very quickly. But as is often the case, our human view of the world misses quite a lot. Plants talk to each other all the time. And the language is chemical.

(2) Over the years scientists have reported that different types of plants, from trees to tomatoes, release compounds into the air to help neighboring plants. These chemical warnings all have the same purpose-to spread information about one plant's disease so other plants can defend themselves. But exactly how plants receive and act on many of these signals is still mysterious.

(3) In this week's Proceedings of the National Academy of Sciences, researchers in Japan offer some explanations. They have identified one chemical message and traced it all the way from release to action.

(4) The scientists looked at tomato plants infested(侵害) by common pest, the cutworm caterpillar(毛虫). To start out, they grew plants in two plastic compartments connected by a tube. One plant was infested and placed upwind and the others were uninfested and placed downwind. The downwind plants were later exposed to the cutworm caterpillar. The results showed that plants that had previously been near sick neighbors were able to defend themselves better against the caterpillar.

(5) The researchers also studied leaves from exposed and unexposed plants. They found one compound showed up more often in the exposed plants. The substance is called Hex Vic. When the scientists fed Hex Vic to cutworms, it knocked down their survival rate by 17%. The scientists identified the source of Hex Vic, and sprayed it lightly over healthy plants. Those plants were then able to start producing the caterpillar-killing Hex Vic. Researchers confirmed that uninfested plants have to build their own weapon to fight off bugs and diseases. How do they know when to play defense? They are warned first by their friendly plant neighbors.

(6) It is a complex tale, and it may be happening in more plant species than tomatoes. It may also be happening with more chemical signals that are still unknown to us. For now though, we know that plants not only communicate, they look out for one another.

What may be the best title for the passage?

A. Survival of Plants

B. Plant World

C. Talking Plants

D. Plant Bug Killer

2 常见困难及应对策略

- 文章读得懂，但抓不住重点，时间不够，来不及答题，怎么办？

（2）先读题目，在文中找出大致位置并作出标记，顺序出题原则

2 常见困难及应对策略

(1) We tend to think of plants as the furniture of the natural word. They don't move they don't make sounds, they don't seem to respond to anything -at least not very quickly. But as is often the case, our human view of the world misses quite a lot. Plants talk to each other all the time. And the language is chemical.(1)

(2) Over the years scientists have reported that different types of plants, from trees to tomatoes, release compounds into the air to help neighboring plants. These chemical warnings all have the same purpose-to spread information about one plant's disease so other plants can defend themselves. But exactly how plants receive and act on many of these signals is still mysterious. (2)

(3) In this week's Proceedings of the National Academy of Sciences, researchers in Japan offer some **explanations**. They have identified one chemical message and traced it all the way from release to action.

(4) The scientists looked at tomato plants infested(侵害) by common pest, the cutworm caterpillar(毛虫). To start out, they grew plants in two plastic compartments connected by a tube. One plant was infested and placed upwind and the others were uninfested and placed downwind. The downwind plants were later exposed to the cutworm caterpillar. The results showed that plants that had previously been near sick neighbors were able to defend themselves better against the caterpillar. (3)

(5) The researchers also studied leaves from exposed and unexposed plants. They found one compound showed up more often in the exposed plants. The substance is called Hex Vic. When the scientists fed Hex Vic to cutworms, it knocked down their survival rate by 17%. The scientists identified the source of Hex Vic, and sprayed it lightly over healthy plants. Those plants were then able to start producing the caterpillar-killing Hex Vic. Researchers confirmed that uninfested plants have to build their own weapon to fight off bugs and diseases. How do they know when to play defense? They are warned first by their friendly plant neighbors. (4)

(6) It is a complex tale, and it may be happening in more plant species than tomatoes. It may also be happening with more chemical signals that are still unknown to us. For now though, we know that plants not only communicate, they look out for one another.

1.What does the author try to emphasize Paragraph 1?

2. According to Paragraph2, what remains unknown is ?

3. The tomato plants in the experiment were _____

4.The experiment shows that the infested plant helps its neighbors by __

5.What may be the best title for the passage?

2 常见困难及应对策略

➢ 文章读得懂，但抓不住重点，时间不够，来不及答题，怎么办？

（3）阅读速度要快，有精读有略读，不要试图搞懂文章中的每一个词！

把注意力集中在作者的思想上，而不是个别是零碎“单词”上。比如读到but的时候，应当能够“预见”到下一句的意思与上一句的不同，意思相反。

3 命题类型及解题技巧

- 1、主题性问题
- 2、细节性问题
- 3、态度性问题
- 4、推断性问题
- 5、词汇性问题

3 命题类型及解题技巧

3.1 主题性问题

要求考生找到一篇文章的中心思想。命题形式有以下3种：

“What is the main idea/point of this passage?

What may be the best title for the passage?

What is the author’ s main purpose in the passage?”

3 命题类型及解题技巧

- **如何抓住主题?**

➢ 第一段首句

许多文章开门见山，一开始就摆出要说明的主要对对象或要论述的主要观点。接下去的句子和段落都说明或论述它。这样，文章的结构就属于一般 具体，主题句也就在首段首句。

➢ 第一段末句

也是主题句常出现的地方，不仅是对全文的总结，也是开启第二段及以后的说明或论述。这种形式的主题句之前通常有表示总结的提示词，如：in consequence, to conclude, in summary，to sum up, in short, in brief; 或表推断的提示词：therefore, thus, as a result, accordingly; 或表示转折的提示词：but, yet, however等。转折之后出现主题句的情况比较多。

3 命题类型及解题技巧

- **如何抓住主题?**

➢ **文章首末两段均有主题句**

主题句到末段才出现的情况较少，常见的情况是文章开门见山提出主题句，中间加以论述，文末复述首段主题，这也是写作的方法之一。

3 命题类型及解题技巧

- **主题性命题干扰项的特征：**

➢ 局部信息：是主旨题干扰项最常见的特点，是指选项中出现之涉及文章的细节，如一句无展开论述的话；某自然段的大意，此种选项干扰性很强，做题时尤其需要留神。有超过一半的文章中心在文章的首句和末句。

➢ 概括范围太宽：指选项包含的内容超出或多于文章阐述的内容。

➢ 无关信息：即文章中未提到、或找不到语言依据的信息。

3 命题类型及解题技巧

eg.

第一段： Almost eight decades ago, the American educator Abraham Flexner published an article entitled *The Usefulness of Useless Knowledge.* In it, he argued that the most powerful intellectual and technological breakthroughs usually emerged from research that initially appeared "useless", without much relevance to real life.

……

31. What may be the best title for the passage?

A. The Value of Creative Ideas

B. The Importance of Basic Research

C. Innovation in Silicon Valley

D. In Praise of "Useless" Endeavors

3 命题类型及解题技巧

3.3 态度性问题

命题形式为“What's the attitude of the author towards …?”

态度性问题的选项一般分为以下三种：

*褒义词：positive, support, useful, interesting, enthusiasm, admiring 等；

*中性词：indifferent漠不关心的，impassive不动情的, uninterested, ambivalent含糊不定的, neutral中立的，apathetic冷淡的, disinterest不关心等；

*贬义词：disgust, critical, negative, tolerant, disappointment等。

3 命题类型及解题技巧

3.2细节性问题

细节性问题为阅读考题的基本问题，占很大比重。此类考题比较简单，因此是我们拿分的部分，有必要争取全部细节性考题答题正确。利用题目中的关键词寻找文中对应词，在对应词周围查找到答案。**若遇到数字题型，注意**运算型：通过四则运算（主要是加减法）求解。注意原始数据不是解。

细节题干扰项的特征：

- 无：选项中所讲内容在原文中根本不存在，或找不到语言依据
- 反：选项的内容与原文相矛盾，如原文说西，选项说东；原文说低，选项说高。
- 混：原文说甲事物有某特征，但选项却张冠李戴，挪乙事物上。
- 偏：原文中说某事物有诸多特征，而且题干要求多种特征，但选项仅讲了一个特征。

3 命题类型及解题技巧

The researchers also studied leaves from exposed and unexposed plants. They found one compound showed up more often in the exposed plants. The substance is called Hex Vic. When the scientists fed Hex Vic to cutworms, it knocked down their survival rate by 17%. The scientists identified the source of Hex Vic, and sprayed it lightly over healthy plants. Those plants were then able to start producing the caterpillar-killing Hex Vic. Researchers confirmed **that uninfested plants** have to build their own weapon to fight off bugs and diseases. How do they know when to play defense? They are **warned** first by their friendly plant **neighbors. (4)**

4. The experiment shows that the **infested plant** helps its neighbors by _____

A. making more Hex Vic to attract the pest

B. releasing Hex Vic into the air to warn them

C. letting them know how to produce Hex Vic

D. producing enough Hex Vic to kill the pest

3 命题类型及解题技巧

3.3 态度性问题

策略：

*遇到这样的词，要用笔画下来，以免以后不好找。

*根据文中有典型褒贬含义的词汇判断。

*当题目要求找出作者对某人的态度时，答案多为褒义词。

3 命题类型及解题技巧

3.4 推断性问题

命题方式“What can be inferred from the passage that.....”

命题形式包括下列五个动词：infer, imply, suggest, conclude ,assume。

此类型问题要求考生根据文章中的关键词、短语、结构等进行推断，或要求考生通过阅读某段或几段内容，推断出一个结论，类似于主题性问题。注意防止不依据关键词？而凭空进行推断，这是许多考生存在一的个通病。

注意，文章中出现的原文一般不是答案！

3 命题类型及解题技巧

3.5 词汇性问题

根据上下文判断大纲词汇表以外某些词汇和短语的意义，主要考察两种情况：

*熟词僻义或具体词义在特定语言环境的场合考法。注意在这种情况下，常规含义不是解。

*超出词汇表的生词含义的推断。

3 命题类型及解题技巧

3.5 词汇性问题

策略：

*根据构词法推测超纲词的含义

*根据上下文来判断该词真正的词义，才是唯一的出路！

一般而言，上下文线索所提示的意义与所考词汇要么为同义关系，要么为反义关系。

同义关系：如，namely, in other word, this means等

反义关系：如，but, yet, however, although, while, whereas, despite, in site of, in contrast, on the contrary等

3 命题类型及解题技巧

其他注意事项

➢列举处常考

该类型语句常考的题型是“细节性问题”。

➢转折处与强对比处常考

转折处常常是语义的重点，命题常常要涉及，一般通过however, but yet, in fact等引导。

强对比常由 unlike, until, however, but…引导。

➢数字与年代常考

3 命题类型及解题技巧

其他注意事项

➢ 最高级及绝对性词汇常考

文章中常出现first, must, all, only, anyone, always, never, none等绝对性词汇或 most +形容词（副词）和形容词（副词）+est等最高级词汇，或only, sole, unique, simply（只要），just（只要）等表示唯一的词汇往往是考题要点，一般出“细节性问题”。

➢ 段落句常考

文中首段第一句（段首句）和末段最后一句（文尾句）都是十分重要的地方，往往是文章作者表达中心思想，进行总结综述的地方，因此常出主题性问题、细节性问题。

3 命题类型及解题技巧

Sample:

(1) Vancouver is the best place to live in the Americas, according to a quality-of-life ranking published earlier this month .The city regularly tops such indexes as its clean air, spacious homes and weekend possibilities of sailing and skiing. **But** its status as a liveable city is threatened by worsening congestion(拥挤).Over the next three decades, another I million residents are expected to live in the Greater Vancouver region, adding more cars, bicycles and lorries to roads that arc already struggling to serve the existing 2.3 million residents.

(2) A proposal by Vancouver’ s mayorseeks to prevent the worsening conditions. Upgrades would be madeto 2,300 kilometres of road lanes, as well as bus routes and cycle paths. Four hundred new buses would join the fleet of 1,830. There would be more trains and more “sea bus” ferry crossings between Vancouver and its wealthy northern suburbs. To get all that, residents must vote to accept an increase in sales tax, from 7% to 7.5%. Polls suggest they will vote no.

3 命题类型及解题技巧

Sample:

(3) Everyone agrees that a more efficient transport system is needed. Confined by mountains to the north, the United States to the south and the Pacific Ocean to the west, Vancouver has spread in the only direction where there is still land, into the Fraser Valley, which just a few decades ago was mostly farmland. The road is often overcrowded.

(4) Yet commuters' suspicion of local bureaucrats may exceed their dislike of congestion. TransLink, which runs public transport in the region, is unloved by taxpayers. Passengers blame it when Skytrain,the light-rail system, comes to a standstill because of mechanical or electrical faults, as happened twice in one week last summer, leaving commuters stuck in carriages with nothing to do but expressing their anger on Twitter. That sort of thing has made voters less willing to pay the C$7.5 billion in capital spending that the ten-year trafficupgrade would involve.

(5) Despite the complaints, Vancouver's transport system is a decent, well-integrated one on which to build, reckons Todd Litman, a transport consultant who has worked for TransLink. "These upgrades are all-important if Vancouver wants to maintain its reputation for being a destination others want to go to." He says.

3 命题类型及解题技巧

Sample:

第一段 Vancouver is the best place to live in the Americas, according to a quality-of-life ranking published earlier this month .The city regularly tops such indexes as its clean air, spacious homes and weekend possibilities of sailing and skiing. **But** its status as a liveable city is threatened by worsening congestion(拥挤).Over the next three decades, another I million residents are expected to live in the Greater Vancouver region, adding more cars, bicycles and lorries to roads that arc already struggling to serve the existing 2.3 million residents.

1. The biggest problem threatening Vancouver as a liveable city is .

A. increasing congestion　　B. climate change

C. shortage of land　　D. lack of money

3 命题类型及解题技巧

Sample:

(2) A proposal by Vancouver’ s mayor seeks to prevent the worsening conditions. Upgrades would be madeto 2,300 kilometres of road lanes, as well as bus routes and cycle paths. Four hundred new buses would join the fleet of 1,830. There would be more trains and more “sea bus” ferry crossings between Vancouver and its wealthy northern suburbs. To get all that, residents must vote to accept an increase in sales tax, from **7%** to **7.5%.** Polls suggest they will vote no.

2. The upgrade proposal by Vancouver’ s mayor may be turned down by residents because .

A. they do not want more people to move in

B. they are reluctant to move to new places

C. upgrades would take away their living space

D. upgrades would add to their financial burdens

3 命题类型及解题技巧

Sample:

(3) Everyone agrees that a more efficient transport system is needed. Confined by mountains to the north, the United States to the south and the Pacific Ocean to the west, Vancouver has spread in the only direction where there is still land, into the Fraser Valley, which just a few decades ago was mostly farmland. The road is often overcrowded.

3. The only direction for Vancouver to further expand is towards .

A. the east

B. the west

C. the south

D. the north

3 命题类型及解题技巧

Sample:

(5) Despite the complaints, Vancouver's transport system is a decent, well-integrated one on which to build, reckons Todd Litman, a transport consultant who has worked for TransLink. "These upgrades are all-important if Vancouver wants to maintain its reputation for being a destination others want to go to." He says.

5. According to Todd Litman, the upgrade proposal .

A. will solve the traffic problem

B. will benefit local economy

C. satisfies the transport company

D. deserves public support

3 命题类型及解题技巧

Sample:

(4) Yet commuters' suspicion of local bureaucrats may exceed their dislike of congestion. TransLink, which runs public transport in the region, is unloved by taxpayers. Passengers blame it when Skytrain,the light-rail system, comes to a standstill because of mechanical or electrical faults, as happened twice in one week last summer, leaving commuters stuck in carriages with nothing to do but expressing their anger on Twitter. That sort of thing has made voters less willing to pay the C$7.5 billion in capital spending that the ten-year trafficupgrade would involve.

4. TransLink is mentioned (Para.4) as an example of .

A. world famous transport companies

B. local residents' complaints about the bureaucrats

C. local effort to improve public transport

D. worsening traffic congestion
